Mid Durham Rural West AAP's priorities are:

1. Road safety & highways
2. Support the community & voluntary sector
3. Activities for young people

The AAP have carried out a mapping exercise as part of Priority 2 and as the information is all from the public domain will share it with the LINK. They will also be happy to send out LINK information to their mailing list (approx. 200 people).

We discussed the work being done with young people and the problems getting children to attend event and activities in a very rural area. The AAP will keep the LINK informed of any events they have. Andy also said to contact Julie Ingham from the YMCA –she is doing a lot of work with young people throughout the Consett area with an event planned for the end of June.

**Actions:**
