

County Durham LINK Meeting/Event

Date: 24 th March 2010
Event: Patient Information Group
Number/range of attendees: 6 (including 2 patients)
Purpose of meeting/event: To discuss information leaflets for patients
Record completed by: Keven
<p>It had originally been agreed that a minimum of 3 patients should be present, however due to the amount of work to be carried out it was decided the meeting should still take place.</p> <p>Fiona Maher (Health works co-ordinator at Easington) she may be able to encourage volunteers from her area therefore requested that Susan Jobson should attend a meeting so as to explain the role of info group.</p> <p>In all the total documents to be reviewed was approx. 26 – 15 of which were for the Continence Service (some of which were for the healthcare professionals and not patients)</p> <p>In all the meeting went very well but turned out to be somewhat time consuming with time bringing about the meeting closure.</p> <p>The next meeting has therefore moved forward in an attempt to catch-up as many more are in the pipeline.</p>
